

MICHIGAN WATER COLLABORATION NETWORK 2017  
FISHERIES SURVERY RESULTS

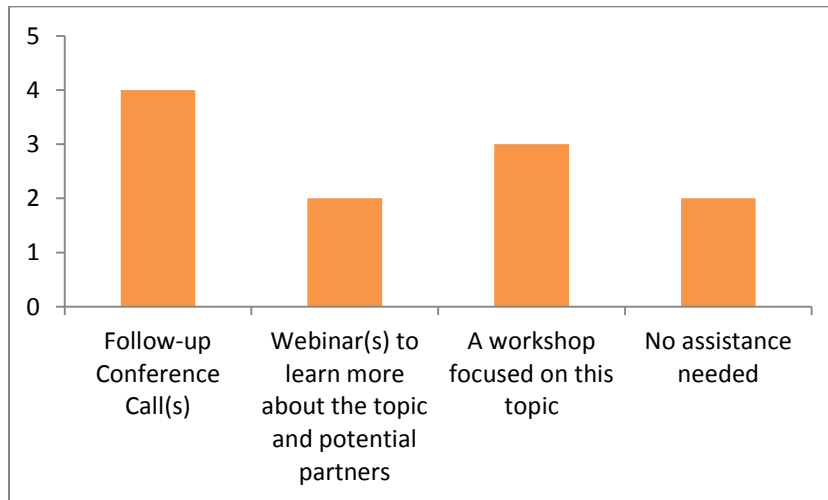

**Continuing to Work Together**

There is strong interest within the group to continue working together on the topic(s) discussed during the breakout session. Everyone within the group had some interest in continuing to pursue partnerships that address fisheries research and management, as evidenced by the table below:

**Support Going Forward**

There is interest in having some structured support in continuing discussions, though it varies among group participants:

**Action Step Idea:** Hold an initial conference call where the group could discuss and identify activities – future conference calls, webinars, workshops - that would help to develop the partnership(s) further.
